Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 10/7/05.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2, 3, 10, 11, 14, and 15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Each of these claims depends from base independent claim 1, which recites that the state is one where fuel consumption is lowered. However, each of claims 2, 3, 10, and 11 recite an acceleration or high speed condition, which is one where fuel consumption would be increased. Further, independent claim 1 states that the second temperature is higher than the first temperature, but dependent claims 10 and 11 recite the second temperature being higher than the first temperature. Accordingly, there are internal contradictions within these claims which must be resolved.

Regarding claims 14 and 15, it is first noted that the two claims are exactly the same, and thus redundant. Further, each of these claims is directed to the state being a time when the actual time becomes equal to the first temperature. This state does not appear to correlate to a state of lowered fuel consumption as recited in the independent claim. Since it is not clear how claims 14 and 15 relate to the claimed invention as set forth in the base claim, they have not been examined at this time.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Takahashi.

As per claims 1-13, Takahashi discloses a vehicle air conditioning system comprising variable compressor 13, controller 18 for setting first & second target temperatures and controlling the discharge based on the second temperature to lower fuel consumption when the vehicle accelerates, decelerates, remains at constant speed (which may low speed or a stationary state), when the vehicle enters a high speed (occurs during acceleration), driving at maximum during constant/stationary speed (See M2 and H settings in Table 3).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marc E. Norman whose telephone number is 571-272-4812. The examiner can normally be reached on Mon.-Fri., 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cheryl Tyler can be reached on 571-272-4834. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
